

August 7 (Thursday Afternoon)

Parallel Session V-C (Optimal Control Theory)

Location: Conference Room, 5F, Science Education Building

Chair: Alexander Gornov

- 16:00-16:25 Stochastic Algorithms for Global Optimization
Alexander Gornov (Institute for System Dynamics and Control Theory of SB RAS, Russian Federation)
- 16:25-16:50 Numerical Solution of the Stochastic and Deterministic LQR Problem
Hermann Mena (University of Innsbruck, Australia)
- 16:50-17:15 Existence Theorems for Monotone Multi-Valued Mappings in Partially Ordered Metric Spaces
Jukrapong Tiammee (Ching Mai University, Thailand)
- 17:15-17:40 Approximation Methods for Common Solutions of Split Variational Inclusion and Fixed Point Problems in Hilbert Spaces
Narin Petrot (Naresuan University, Thailand)
