

## August 7 (Thursday Afternoon)

### Parallel Session V-E (Partial Differential Equations and Applications)

**Location: M210, 2F, Mathematics Building**

**Chair: Young-Ho Kim**

- 16:00-16:25 A Note on the Moment Exponential Stability for Stochastic Functional Differential Equations  
*Young-Ho Kim (Changwon National University, Korea)*
- 16:25-16:50 Cayley Digraphs of Brandt Semigroups Relative to Green's Equivalence Classes  
*John Meksawang (Chiang Mai University, Thailand)*
- 16:50-17:15 Unbounded Sets of Solutions of Non-Cooperative Elliptic Systems on Spheres  
*Piotr Stefaniak (Nicolaus Copernicus University, Faculty of Mathematics and Computer Science, Poland)*
